

Staff Benefits

Who we are

IntraHealth provides NHS services to a range of patients through general practice, pharmacies and clinical services such as anticoagulation monitoring, patient medication reviews and childhood immunisation programmes.

We also provide management and clinical support to other GP practices and NHS bodies. We are a well-established organisation having provided NHS services for 18 years. Our team is made up of GPs, Advanced Nurse Practitioners (ANPs), nurses, pharmacists, Health Care Assistants (HCAs) and local administration teams supported by a centralised back office function; providing finance, HR, administration and data analysis support.

Our Vision

A community where every patient matters and their personal health needs are fulfilled by caring, dedicated teams and a leading innovative provider of health services.

Our mission is to be trusted to provide quality health care.

Our people are very important to us and our values reflect that, concentrating on ethical values of taking responsibility; working with integrity and honesty; courtesy and supporting the development of our people.

Our priorities are three-fold: delivering a high quality of care to our patients; providing our staff with safe and rewarding careers and achieving success for our commissioners and the organisation.

What we offer

- NHS Pension Scheme (primary care roles)
- 30 days holiday per annum plus bank/public holidays
- Salary Sacrifice Bicycle scheme
- Salary Sacrifice Health Plan; including
 - HSF Assist (advice and support)
 - HSF Perkbox (money saving offers)
- EE discount scheme
- Free VDU Eye Tests and contribution towards VDU spectacles
- Company sick pay scheme
- Paid business mileage
- DBS Update Service fee reimbursement
- Up to 5 days study leave per annum
- Company funded degree courses

GP Positions

There are many reasons why this specialty is an attractive option for doctors who enjoy and want to use their breadth of medical knowledge and continue to develop clinical skills.

We offer a salaried model, working with us brings the certainty of guaranteed income with the full support of our strong governance processes, support function and extensive ANP and clinical pharmacist practice teams.

In addition to benefits described above we offer flexible working and cross-site working where desired. A number of our sites are training practices and we actively invest in and develop our people. We can train administration staff to Health Care Assistant (HCA), support HCAs to become nurses and offer GP career progression to medical Director level. We provide many opportunities to develop new ideas and support new ways of working.
